

Job opportunities for young people with a disability or long term health condition

Through our Community Jobs Scotland programme, we are working with third sector employers across Scotland to create a range of jobs for individuals with a disability or long term health condition aged 16–29 who are currently unemployed and not involved in the Work programme, Community Work Placement or Work Choice.

The jobs will:

- Be at least 25 hours per week
- Pay the minimum wage at least
- Last for 6 months to 1 year
- Give access to approx. £200 for training

The types of jobs will be varied and could include for example admin, care work, warehousing, landscaping, retail, catering and more!

To ensure the young people with a disability or long term health condition that you support do not miss out on these opportunities contact Michael Hollinger, SCVO, **NOW** on 0141 559 5014 to find out more.
