## Activity Agreements - The Highland Council

Activity Agreements, as a national employability model have stopped however the Highland Activity Agreement team and the provision that they provide are now within the Highland Council Employability Service.

At this current time, referrals are through the normal routes (usually through the School SDS/Career advisors) however in time the provision will be shaped to provide more of a structured pathway for young people to progress towards further training and employment.

Engagement / transition planning with schools and pupils can begin up to 6 months from the young person's leaving date.
