Birchwood Highland Fort William

Birchwood Highland Housing Support Service provides support to people in Fort William and the surrounding areas.

We work with people in their own homes who may have mental health conditions, learning disabilities or problems with addiction. We have many years of experience working with people who have severe and enduring mental illness in the Lochaber area. Working with people toward recovery we do our best to promote independence and inclusion.

Birchwood Highland also has six self-contained flats in Fort William that were opened in March 2006. A support team operating from what was formerly Flat 5, are able to support residents to experience living in and running a flat.
