Highland Blindcraft

Highland BlindCraft is a supported business which offers training and employment to people with a disability within their factory in Inverness. Through an ongoing programme of training and assessment we give all staff the opportunity of job improvement and enhancement, improved job skills and satisfaction.

We are a leading manufacturer of beds, mattresses and headboards. We offer a full-bespoke service, with a range of mattresses in traditional springs, pocket springs and memory foam. We also stock a fantastic range of high quality wooden bed frames, bedroom furniture and fireside chairs. All our job and training opportunities relate to careers and work experience within this environment, which could include manufacturing, stores, order processing and a number of other roles.
