## Highland Libraries

There are 40 public libraries across Highland plus 8 mobile libraries all of which are accessible. It is quick, easy and free to join, and you can use any library once you are a member. All libraries have computers for you to get online, email, create documents, download ebooks, get free access over 300 databases to help with coursework or general information, email a librarian with questions you can't find the answer to - plus much more.

All libraries have printers, scanners, USB card readers and photocopiers. If you have a particular requirement to enable you to use computers please let the staff know. You can use many library services from home if you have a computer, just go to [www.highlifelifehighland.com](http://www.highlifelifehighland.com) and follow the library links. This is where you can find contact details for all highland libraries and more information on what they provide. Oh yes - and you can also borrow books - if you don't see what you want online or on the shelves just ask and we will get it for you - it won't cost a thing. The staff are happy to help you get the most out of your library.

The library service website is at [www.highlifelifehighland.com](http://www.highlifelifehighland.com).

If you have any questions please contact your local library or the Library Support Unit on:

01463 235713 or email [libraries@highlifelifehighland.com](mailto:libraries@highlifelifehighland.com)
