Modern Apprenticeships - Universal Jobmatch

Universal Jobmatch is a service offered through Government Gateway. This service has been designed to help you search for potential jobs by area, sector, keyword or reference number. You can post your CV and apply for jobs online, so that potential employers can check if you match their requirements. You don't need to register with Universal Jobmatch to start searching for a job.

There is a section devoted to Modern Apprenticeships where employers and agencies who are looking to recruit advertise their vacancies.

For further information and details of current vacancies visit the Modern Apprenticeship section of the [Universal Jobmatch](#) website.
