ScotGrad Summer Placement Programme

Looking for a full-time summer job relevant to your degree? Apply for our 8-12 week placements in the Highlands and Islands!

You'll have the opportunity to use the skills you've learned at university, gain great work experience working for a small business or social enterprise and get paid. Different projects are available from marketing, engineering, IT, to product and business development.

As part of the programme you will attend a 2 day residential course on employability skills and a finals day to present your project.

This programme is open to all current HNC, HND or degree students who will return to university or college in the autumn.

Please note that graduates are not eligible to apply.

Find out more [information](#) and view our [vacancies](#) that are advertised between March and June each year.

The programme is supported by the European Regional Development Fund.

Further Information and Contact Details

Street Address: Andrea McColl, Highlands and Islands Enterprise, Cowan House, Inverness, IV2 7GF
