Volunteering with NHS Highland

There are a number of opportunities currently available within NHS Highland for people who want to volunteer within a health care setting. All of the available opportunities provide a varied and rewarding experience. The staff are immensely grateful for the support they receive and the volunteers develop personal and work related skills which can help them secure employment.

If you are interested in supporting others within a care setting, we'd love to hear from you. We have no upper age limit and a minimum age requirement 16 years of age.

All of the current opportunities are listed on the [NHS Highland volunteer webpage](#) with further details of how to apply.
